#### 1. Virtusa Consulting Services Pvt. Ltd. (<https://www.virtusa.com/>)

- **Tools/Technologies:** Java, Microservices, Spring Boot, Git, Bit Bucket, Angular 6, Maven.
- **Team Size:** 10-15.
- **Duration:** From Apr-2020 To till Date
- **Project Name:** Networked Trade Platform.
- It provides the foundation for Singapore to be the world's leading trade, supply chain and trade financing hub. At its core, it represents a concerted effort to drive an industry-wide digital transformation to build a trade and logistics IT ecosystem which concretes business, community systems and platforms and government systems. It offers features like Document Exchange, User Profile Management, Access Control and Reports to banks and corporates user.
- **Tools/Technologies:** Java, Microservices, Hadoop, Spark, Git, Bit Bucket, Gradle.
- **Team Size:** 10-15.
- **Duration:** From Jun-2019 To March-2020
- **Project Name:** Continuous Control Monitoring System (CCM).
- It is a product to automate the measurement of compliance for system-enabled controls with data driven results. That is to say that where a control is performed or enforced by a software or code, or data exists that indicates the result of the control having been performed effectively, it is feasible to measure the compliance of that control based on the code-snippet behind that control and/or the results data of that control.  
CCM does not enforce control compliance. Rather, it measures control compliance by systematic review of underlying data, configuration or code snippet.
- **Roles & Responsibility:** Working as Technical Lead directly reporting to Manager/Project Lead, working in Agile, Scrum and Sprint. Majorly worked on Development, Automation/Configuration of server Deployment on UAT/STG/PRD.

#### 2. Capgemini India Private Ltd. (<http://www.capgemini.com>)
