Profile Summary

Dedicated and highly experienced **WebSphere Administrator with 17-year track record in Banking IT and expertise in designing, deploying, and managing complex middleware environments.** Adept at ensuring the seamless operation of critical applications in banking and finance. Proven track record of optimizing performance, enhancing security, and implementing efficient automation solutions.

Professional Experience

- **Middleware Consulting on WebSphere and Jboss/Tomcat** environments. The Core responsibilities are handling **level 4 and level 5 escalation issues** in Middleware stream across the data center, providing technology advisory services on Integration, Infrastructure Planning, Designing, Integration, and Implementation & Maintenance of Environments across Middleware technology.
- **Lead a team responsible for WebSphere Application Server administration,** including installation, configuration, and performance tuning.
- Successfully managed and supported multiple **WebSphere versions, including 6.0, 6.1, 7.x, 8.5.5.x, and 9.0,** ensuring high availability and reliability.
- Also, **4 years of specialized OpenShift / Kubernetes administration** and support experience.
- **Administered OpenShift clusters, including configuration, and upgrades.**
- **Managed Docker containers, Kubernetes pods, services, and routes.**
- Implemented automation scripts in **Python and shell Script** to streamline routine tasks, resulting in a significant reduction in manual effort.
- Collaborated with cross-functional teams to **troubleshoot complex issues, reducing system downtime** and improving overall efficiency.
- Conducted **capacity planning assessments** and ensured the middleware environment could handle anticipated loads
- **Investigated and resolved** middleware-related issues, including connectivity, performance, and configuration problems.
- **Stayed updated on the latest trends** and best practices in middleware administration, continually developing skills.
- Dedicated to driving **operational efficiency and innovation in Banking IT.**
