PROFILE

Looking for a challenging role in an organization to utilize my technical, database, and management skill for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector

PROJECTS

Car Showroom Database

Developed a MySQL-based database system for a car showroom project, enabling efficient storage, management, and retrieval of various types of data related to car inventory, customers, order, and sales.

Static Website Hosting Using Amazon S3 and CloudFront

Technologies Used: Amazon S3, CloudFront, AWS IAM

- Hosted a static website using Amazon S3 for storage of HTML, CSS, and JavaScript files, ensuring high availability and durability.
- Utilized Amazon CloudFront as a content delivery network (CDN) to distribute website content globally with low latency, enhancing user experience.
- Configured S3 Bucket Policies and IAM roles for secure and public access to the hosted content.
- Integrated SSL/TLS with CloudFront for secure HTTPS access, ensuring data encryption between users and the website
