WORK EXPERIENCE

Apr 2022 - Present

Specialist | Bristlecone

- **Advanced Analytics Report Preparation:** Demonstrated expertise in preparing and editing advanced analytics reports, utilizing cutting-edge tools and methodologies to extract actionable insights from complex datasets.
- **Troubleshooting and Data Accuracy:** Proficiently troubleshooted analytics reports to ensure the accuracy and reliability of data, implementing rigorous quality checks and validation processes.
- **Customized Dashboard Creation:** Adept at creating customized dashboards to effectively visualize and present data insights, enhancing the accessibility and usability of analytics outputs for stakeholders.
- **Data Extraction and Loading with SSIS:** Utilized SQL Server Integration Services (SSIS) to extract data from various file sources and successfully load it into the data warehouse, optimizing data integration processes for efficiency.
- **Standard Reports Preparation:** Skilled in preparing and working on standard reports, providing essential business insights to key decision-makers and supporting data-driven decision-making across the organization.
- **Retailer Collaboration:** Collaborated with retailer-side shared view reports to enhance data analysis and reporting capabilities, ensuring alignment with partner requirements and fostering a collaborative approach to data-driven decision-making.

Achievements:

- Successfully streamlined the analytics reporting process, resulting in a 15% reduction in report generation time, thereby improving overall operational efficiency.
- Implemented data validation protocols, reducing data discrepancies by 10% and enhancing the reliability of analytics reports.

Associate Specialist | Bristlecone

EDI Map Development: Spearheaded the development of Electronic Data Interchange (EDI) maps utilizing the Fulfilment platform within the supply chain domain.

- **Map Types:** Proficiently designed and implemented FF (Flat File) maps for crucial supply chain transactions, including but not limited to:
- **850 Maps (Purchase Order):** Developed comprehensive EDI maps to facilitate efficient communication and transaction processing for purchase orders within the supply chain.
- **810 Maps (Invoice):** Engineered EDI maps to streamline the generation and transmission of invoices, ensuring accuracy and compliance with industry standards.
- **856 Maps (Advanced Shipping Notice):** Successfully created EDI maps to enable the accurate and timely communication of shipment details, enhancing visibility and transparency in the supply chain.
- **845 Maps (Price Sales Catalog):** Developed EDI maps to support the exchange of price and sales catalog information, contributing to effective pricing strategies and market competitiveness.
- **Retailer Collaboration:** Collaborated closely with retailers to understand specific business requirements and tailored EDI maps to align with their unique supply chain processes.
- **Quality Assurance:** Conducted rigorous testing and validation of EDI maps to ensure seamless integration with the Fulfilment platform and compliance with industry standards, mitigating the risk of errors in data transmission.

Achievements:

- Successfully implemented EDI maps that resulted in a 25% improvement in order processing efficiency, reducing turnaround time, and enhancing overall supply chain responsiveness.
- Received commendations from retailers for the accuracy and reliability of EDI maps, contributing to strengthened partnerships and improved customer satisfaction.
