- Bangalore

## SKILLS

- Java
- Spring Boot
- Hibernate
- Servlet
- JSP
- Microservices
- Apache Kafka
- MySQL
- HTML
- CSS
- Java Script

## TOOLS

- STS
- Eclipse
- MAVEN
- JIRA
- GitLab
- Swagger
- Postman

## EDUCATIONAL DETAILS

- BSc. (Electronics) 2012-2015
- 12<sup>th</sup> 2010-2012
- 10<sup>th</sup> 2009-2010

## WORK EXPERIENCE

Antrix Technology India Pvt. Ltd,  
Bangalore.

- Software Engineer
- Nov 2020 to present

Swasthick Scientific Corporation,  
Karaikudi.

- Office Assistant
- Jan 2016 – Feb 2019

# HARINATH UK

## JAVA DEVELOPER

### SUMMARY

- Overall 6 years of experience in technical and non technical field.
- 3 Years of experience in software development in Telecom and ERP (Enterprise Resource Planning) domain using Java, Spring Boot, MySQL, and Web technologies.
- Experienced in all life-cycle phases of the software development process including analysis, coding, testing, documentation and maintenance.

### PROJECT SUMMARY

Title	CEMS (Centralized Element Management System)
Description	Centralized Element Management Systems (CEMS) is a unified application to manage multi domain and multi-vendor applications. This system is used to manage the application's health, performance and configuration. The CEMS Dashboard provides the unified view of the complete network health. Since the managed application's statistics are fetched and stored in RDBMS, both the real time and historic state of the network can be viewed in the dashboard. There are services to configure the managed devices and its APIs. So, any application which supports REST interface can be managed using this system.
Role	Involved in the Spring Boot application development and testing.
Technology	Java, Spring Boot, Spring Data JPA, PostgreSQL, Rest API.
Title	PPM (Player and Personal Management)
Description	NRL (National Rugby League) provides solutions to creation and maintenance of player and staff profiles. The Club users will use this system to create a player/staff profile. These profiles will be submitted to the players and officials for review. Upon completion of review, the profiles will be ready for review by the Once the League successfully approves the profile in PPM.
Role	Involved in Spring Boot application development.
Technology	Java, Spring Boot, Hibernate, MySQL, Rest API.
