CORE COMPETENCIES

- Agile Methodology
- Software Development Life Cycle (SDLC)
- Quality Assurance and Testing
- Cloud Computing
- DevOps
- Data Security
- User Experience (UX) Design
- Project Management
- Business Analysis
- Change Management
- Team Management & Leadership

KEY HIGHLIGHTS

- Successfully led the implementation of the Anti-Money Laundering (AML/CFT) project, ensuring compliance with regulations and enhancing financial security.
- Played a key role in the successful execution of the Health Insurance project, contributing to the integration and accessibility of health insurance services.
- Contributed to the development of the DEH (Digital Engagement Hub), delivering personalized customer experiences across channels and devices.

SOFT SKILLS

PERSONAL DETAILS

- **Date of Birth:** 18/07/1992
- **Languages Known:** English and Hindi

PROFILE SUMMARY

- Actively contributing as a Software Developer at SARO TECH SOLUTIONS PVT. LTD, demonstrating proficiency in developing web applications and utilizing expertise in Spring framework, Hibernate, and Restful services.
- Proven expertise in leveraging Java, J2EE technologies, and Oracle 11g to develop robust web applications, with a strong command over Spring framework, Hibernate, and Restful services, driving innovation and efficiency in software development.
- Orchestrated the successful implementation of the Anti-Money Laundering (AML/CFT) project, utilizing Java, Spring Boot, Spring Data, Apache Kafka, Restful webservices, and Microservices to enhance financial security and compliance, resulting in the increase in regulatory adherence and operational efficiency.
- Proficient in conducting comprehensive code reviews using Sonar Cube and Jacoco to ensure adherence to best practices and high-quality standards, contributing to the improvement in code quality and reliability.
- Adept at quickly grasping new concepts and technologies, with exceptional communication and interpersonal skills, facilitating seamless collaboration and knowledge transfer within cross-functional teams.

WORK EXPERIENCE

Since Jan'23 at SARO TECH SOLUTIONS PVT. LTD as Software Developer Responsibilities:

- Lead the development of Controller Classes, Services, and DAOs using Spring Boot to enhance the functionality of web applications.
- Implemented Hibernate for mapping Java classes with database tables and proficiently utilized HQL and Criteria API for efficient data access.
- Proficient in conducting comprehensive code reviews using Sonar Cube and Jacoco to ensure adherence to best practices and high-quality standards.

Achievements:

- Orchestrated the successful implementation of the Anti-Money Laundering (AML/CFT) project, utilizing Java, Spring Boot, Spring Data, Restful webservices, and Microservices to enhance financial security and compliance.

Mphasis Pvt. Ltd. as Software Engineer | May 2021 - Dec 2022

Responsibilities:

- Developed Controller Classes, Services, and DAOs using Spring Boot to contribute to the efficient functioning of web applications.
- Played a key role in crafting comprehensive test cases using JUnit and Mockito to ensure the robustness and reliability of the developed applications.

Achievements:

- Contributed to the successful execution of the Health Insurance project, utilizing Java, Spring Boot, Spring Data, and Restful webservices to enhance the accessibility and integration of health insurance services.

Uniquehire Consulting LLP. (Deployed in Infosys) as Software Engineer | Mar 2020 - Aug 2020

Responsibilities:

- Contributed to the development of Controller Classes, Services, and DAOs using Spring Boot to ensure the seamless operation of web applications.
- Played a pivotal role in creating robust test cases using JUnit and Mockito to ensure the reliability and efficiency of the developed applications.

Achievements:

- Contributed to the successful execution of the DEH (Digital Engagement Hub) project, leveraging Java, Spring Boot, Spring Data, and Restful webservices to enhance personalized customer experiences across channels and devices.

PROJECT DETAILS

Anti-Money Laundering / Countering the Financing of Terrorism (AML/CFT)

Description: An anti-money laundering analyst is a professional who investigates and monitors financial activity and transactions that appear to be suspicious. They are also responsible for helping businesses comply with all anti-money laundering rules and regulations to prevent audits or money-laundering accusations.

Health Insurance

Description: The objective of the project is to implement a fully integrated Health Insurance Exchange and Integrated Eligibility System for Indiana.

DEH (Digital Engagement Hub)

Description: The Finacle Digital Engagement Hub is an enterprise-class system of engagement that powers insights-driven personalized customer experiences across channels, applications and devices. The hub works seamlessly with all back-end applications such as core banking, trade finance, and payments as well as channel applications such as mobile banking, branch solutions, and chat bots.

EDUCATION

2018

Master in Computer Application (MCA) | NIT Raipur
