pratikhajare09@gmail.com

<https://www.linkedin.com/in/pratik-hajare-2904571b0/>

### SUMMARY

As a motivated and technically skilled in Java Spring Boot Developer with around **2 years** of hands-on experience in designing, developing, testing, and maintaining robust and scalable backend systems. Seeking a challenging role to leverage technical expertise and contribute to the success of innovative backend projects.

### SKILLS

- **Programming Languages** : Java, Spring Boot, Hibernate, JPA, SQL.
- **Programming Tools** : Apache Camel , Junit, Mockito, Maven, Postman, JIRA, Confluence, Log4j, Slf4, Jenkins, Snyk, Wire-mock, Liquibase, PI Test mutation coverage, NetBeans.
- **Version Controls System** : Git, Bitbucket. Bug fixing, Development tests Agile, Sprint Ceremonies.

### WORK EXPERIENCE

#### NIUM

SDE 1 • Oct 2021 - Oct 2023

- Good knowledge and experience in developing and consuming **Restful** web services.
- Experience with **TDD** practices, **JUnit**, **Functional** and **Integration** testing.
- Good experience with code quality tools like Check Style, **SonarQube**.
- Collaborate with cross-functional teams to identify and prioritize features and requirements.
- Participating in daily scrum meetings, sprint planning, unit testing and bug fixes.

### PROJECTS

#### 1. Payment Processor

Develop a cutting-edge cross-border payment processing system and gateway, enabling seamless financial transactions across the global market. This project focuses on enhancing security, efficiency, and accessibility to facilitate secure and frictionless international payments, catering to diverse currencies and compliance standards, and ensuring a superior user experience.

**Responsibility** : Implemented Routing rules for route payments to different partners on the bases on currency & payment type, partner name and Setup QA environment.

**Technologies** : Java 8, JPA, Apache Camel, Rabbit MQ, Spring Boot, AWS secrets manager, S3, RESTful and PostgreSQL.

## 2. Netbank Partner

Develop a flow for collection in PHP currency and focusing on processing incoming flows. Incorporated a 5-day validity logic for ICC transactions. Exceeded timeframes resulted in error flagging and prompt partner fund refunds.

**Responsibility** : Contributed in partner facing integration for same. Implemented a Database and Rabbit MQ Queue and Configure AWS Secret Keys for partner for PHP collections and QA environment setup for same.

**Technologies** : Java 8, JPA, Apache Camel, Rabbit MQ, Spring Boot, AWS secrets manager, S3, RESTful and PostgreSQL.

## EDUCATION

### Bachelor of Engineering in Computer

Shri. Jaykumar Raval Institute of Engineering 2021

### Diploma in Computer Engineering

G.M.C Polytechnic of Engineering 2018

## CERTIFICATIONS

### Java Object-Oriented Programming
