WORK EXPERIENCE

Software Engineer

Neosoft Technologies Pvt Ltd

06/2022 - Present

PROJECTS

AlSudais Logistics:

- Master Management Service Development:** Engineered the Master Management Service, pivotal in furnishing fundamental data to interconnected services, ensuring a robust data foundation
- IAM Management Service Implementation:** Orchestrated the IAM Management Service, facilitating user authentication and authorization through seamless integration with KeyCloak
- RFQ Service Development:** Crafted the RFQ Service, enabling seamless data provisioning to Apache POI for streamlined quotation generation, enhancing efficiency in the quoting process.
- Notification Service Enhancement:** Elevated the Notification Service's functionality, enabling the dissemination of Email/SMS notifications via SMTP protocol and Twilio integration through Kafka, fostering enhanced communication channels.
- Integration Bus Service Development:** Architected the Integration Bus Service, adept at aggregating sensor data utilizing MQTT protocol, and proficiently storing data in both Kafka and MongoDB, optimizing data management and utilization

Homalane:

- DFN Workflow Development:** Spearheaded the development of the Dual Franchise Network (DFN) Workflow
- Performance Optimization:** Revamped existing codebase for enhanced speed by streamlining queries and eliminating redundant objects and variables
- Multiple Category Tagging:** Engineered support for multiple category tagging of a Stock Keeping Unit (SKU), fostering improved categorization
- Generic Solution Design:** Conceptualized and implemented a versatile solution for incorporating one-time charges (e.g., Freight, Delivery) at the project level, enhancing adaptability
- Framework Migration:** Successfully migrated project from Spring 2.7 to 3.1.6, ensuring compatibility and leveraging updated features
- MOQ Workflow Development:** Led the development of the Minimum Order Quantity/Value (MOQ) Workflow, optimizing order processing

EDUCATION

Bachelor's Of Science In Information Technology

K.J Somaiya College of Science and Commerce

07/2019 - 04/2022

9.4 CGPA

SKILLS

Java

Springboot

Microservices

Spring Security

Spring Webflux

Spring Data Jpa

Hibernate

KeyCloak

Redis

MySQL

PostgreSQL

Mongodb

GraphQL

Liquibase

RabbitMQ

Apache Kafka

Apache Camel

ReactJS

TypeScript

Git

Github

Jenkins

Docker

Kubernetes

ELK

AWS

ACHIEVEMENTS

Nominated for Employee of the Year(2023).

Won Employee of the Month(June 2024).

Solved 100+ Problems on LeetCode

[Rahul_Gupta005 - LeetCode Profile](#)
