## **Career Objective**

Angular Developer / java with 3 years of experience specializing in front-end development. Seeking to leverage my skills and experience in a challenging role that offers opportunities for professional growth and development.

## **Education**

### **Bachelor of Technology (B.Tech) in Computer Science Engineering**

Jawaharlal Nehru Technological University, Kakinada (JNTU-Kakinada)

2017 - 2021 | CGPA: 7.2

### **Intermediate**

Board of Intermediate Education

2015 - 2017 | Aggregate: 91%

### **Secondary School Certificate (S.S.C)**

Board of Secondary Education

2014 - 2015 | Aggregate: 88%

## **Professional Summary**

- Over 3 years of experience in the Software Development Life Cycle (SDLC), with a focus on web application development using Angular and Spring Boot.
- Proficient in Angular 12-14, JavaScript, TypeScript, HTML5, CSS3, and Bootstrap, springboot.
- Experienced in Agile-Scrum methodology, participating in daily stand-ups, sprint planning, and requirement review meetings.
- Skilled in developing Single Page Applications (SPAs) using Angular and other modern JavaScript frameworks.
- Expertise in responsive web development and optimizing high-traffic websites.
- Proficient in using JIRA for issue tracking and project management.
- Created RESTful APIs with Spring Boot for efficient client-server communication and seamless data handling.

## Technical Skills

- **Web Technologies:** HTML5, CSS3, Bootstrap, Material UI, DOM, SASS, JSON
- **JavaScript Frameworks:** AngularJS, Angular 12-14
- **Programming Languages:** JavaScript, TypeScript, Java, springboot
- **Version Control Systems:** GIT, SVN
- **Operating Systems:** Windows, Mac OS
- **Databases:** MongoDB
- **IDEs:** Visual Studio Code, IntelliJ, Notepad++, Eclipse
- **Others:** RXJS, Webpack, Babel, Confluence, Postman, Jira

## Project Experience

### Mondee-Interact Project

**Role:** UI / Front-End Developer, Software Engineer

**Duration:** March 2022 - Present

### Responsibilities:

- Analyzed user requirements and prepared documentation.
- Developed business component modules using Agile-Scrum methodology.
- Created a UI migration roadmap to Angular 12/14, utilizing TypeScript, components, directives, services, observables, routes, router-outlets, dependency injections, versioning, and webpack.
- Developed complex SPAs with Angular 14.
- Implemented alternate location colour schemes across the project.
- Optimized code and fixed bugs for better performance.
- Developed MOT screen and handled credit card-related functionalities with validations.
- Created custom directives, filters, and services to enhance code reusability.
- Collaborated with product and technology teams to meet UX/UI requirements.
- Utilized Bootstrap for front-end development and MongoDB for the backend.
- Implemented new functionalities like QC screen to display failed and passed counts in UI.
- Worked closely with QA teams to fix reported bugs and ensure cross-platform compatibility.

### Achievements:

- Improved application performance by 20% through code optimization.
- Successfully led a team of 3 junior developers during the UI migration process.

**Environment:** HTML5, CSS3, JavaScript, Bootstrap, TypeScript, Angular 9/14, springboot, GIT, MongoDB
