

# RITTIK OJHA

Software Engineer

## ABOUT

Experienced software engineer specializing in Java, Spring Boot, RESTful APIs, and microservices. Proficient in RabbitMQ for efficient asynchronous communication. Skilled in MySQL & Oracle database design. Strong in agile methods, teamwork, and on-time project delivery. Ready to contribute technical prowess and innovative problem-solving to a dynamic team.

## CONTACT

**PHONE:**

+91 8456844402

**EMAIL:**

rittikojha007@gmail.com

## SKILLS

**Language & Frameworks:** Java, Spring Boot, Maven

**Web Technologies & Design:** HTML, CSS

**Databases:** Liquibase, MySQL, Oracle

**Data Formats:** XML, JSON

**Development Tools:** IntelliJ IDEA, Eclipse IDE, VS Code, MySQL WB, DBeaver, RabbitMQ

## EDUCATION

---

**Bachelor of Technology** (2016 - 2020)

Electronics and Communication

Institute of Technical Education and Research,  
Bhubaneswar, India.

(CGPA : 7.3)

## EXPERIENCE

---

**ATMECS Global (Hyderabad, India)**

❖ **Spring Boot Backend Developer | Client – Ontario Systems (Finvi)** (May 2021 – Present)

- Worked on the design, implementation, and development of API endpoints across various portals of the application.
- Devised and executed comprehensive test scenarios using the JUnit framework and Mockito, ensuring endpoint robustness.
- Orchestrated essential database operations, scripting and executing Liquibase scripts to align with dynamic schema requirements.
- Scrutinized and rectified code inconsistencies to uphold superior code quality and extensive test coverage, employing Sonar.
- Leveraged tools like Postman and Swagger to methodically assess API outputs.
- Orchestrated end-to-end deployment processes through Jenkins, a continuous integration and continuous delivery(CI/CD) platform, in addition to

**CI/CD & Version Control:** Jenkins, Git, Bitbucket

**Project Management:** JIRA

**Collaboration & API:** Confluence, Swagger, Postman

core development responsibilities.

- Proficiently managed code repositories, adeptly utilizing git commands and tools like Git Bash and Git GUI.
- Delivered multiple client presentations, showcasing distinct application portals and features.
- Demonstrated prowess in debugging and swiftly resolving bugs and defects, identified by the QA team.

❖ **Training** (February 2021 – May 2021)

Engaged in intensive training sessions at ATMECS, focused on diverse technologies including Java, Spring Boot, HTML, CSS, JavaScript, C#, and ASP.NET, along with hands-on involvement in various Proof of Concepts (POCs).

## **CERTIFICATIONS**

---

- **Finvi** : Client appreciation for delivering quality work (2023)
- **Microsoft**: Azure AI Fundamentals AI-900(2022) – 75%
- **Aptech**: Java (2017)- 80%
