Education

Bachelors of Technology

Akola University

2021-2022

Key Skills

- **Programming Languages:**
Java, JavaScript
- **WebTechnologies:**HTML 5
- **Databases:** MySQL5
- **Frameworks** :
Spring Boot 2.x, Hibernate
4.x, Spring MVC 4.x
- **Version Control Tool** : Git
- **ProjectManagement Tool:**
JIRA
- **IDS's** : Eclipse, STS-4
- **Swagger Documentation**
- **Flyway migration**
- **Server:** Apache Tomcat 9.x
- **Microsoft Office** :
Excel, Power Point
Presentation, Word.

Objective

Dedicated Java Developer with over 1.4 years of experience in designing, coding, and maintaining Java applications. Seeking to leverage my expertise in building scalable and high-performance software solutions to contribute to the success of a dynamic tech team.

Experience

Company Name

Reckonsys Tech Labs

Java Developer

2022– Till Date

Summery

- In my 1.4 year tenure, I have acquired experience in **Java, Core Java, Advance Java** and related technologies.
- I have gained practical experience by working extensively with **Apache Tomcat**.
- I am proficient in creating web services that adhere to **REST Principles**.
- I am well-acquainted with **GitHub** through firsthand experience.
- I have a comprehensive understanding of the principles underlying the **Software Development Life Cycle (SDLC)**.
- Through hands-on practice, I have become adept at working effectively in **Agile methodology**.
- Implementing design patterns like **singleton, factory**, and business delegate is one of my strengths.
- **Collection, Exception handling, String**, and Framework are areas where I excel in understanding.
- I possess a solid understanding of **Advanced Java**, including the application of **JDBC**.
- **Spring MVC** and **Spring IOC** are areas where I have practical proficiency.

- I am proficient in using **API Postman** to validate and debug API responses.
 - I am proficient in using **Java 1.8 features** to enhance performance and functionality.
 - I have extensive experience in writing efficient and effective **MySQL database** queries.
 - **Spring Boot, Microservices, and REST API** have been instrumental in achieving seamless integration and interoperability in web projects within my industry experience.
 - I am proficient in leveraging the features and functionalities of **Hibernate mapping** to achieve data integrity and consistency.
 - I have gained practical knowledge and experience in utilizing the **JIRA tool** to track project progress and milestones.
 - Working with the **Logger log management tool** is an integral part of my logging and monitoring strategy.
 - Java Backend Development is a specialized skill set where I excel, meeting the demands of the industry.
 - Assisted in compiling and presenting crucial documentation materials to the team, encompassing **manuals, developer guides, Rest API guides**, known issue lists, and release notes.
 - Shows an analytical approach to comprehend and understand the causes of bug occurrences, and promptly fix them.
 - Worked in collaboration with team members to review code and test cases, and conduct thorough analysis of change requests and enhancements.
-

Project Details

Project Name: Fashion France

Project Domain: Ecomm-Domain

Project Description:

Fashion France is a prominent online fashion retailer catering to the fashion-conscious population of France. We curate a diverse collection of clothing, shoes, accessories, and beauty products from renowned local and international brands. As a Java developer at Fashion France, you will be responsible for enhancing our ecommerce website's performance and user experience, implementing new features, and integrating with third-party services to optimize order fulfillment and inventory management.

Roles and Responsibility:

- Requirement analyze, design, coding and testing etc.
- Producing and consuming the restful web services.
- Conducting software analysis, programming, testing, and debugging
- Ensuring designs comply with specifications
- Investigating alternatives and technologies
- Prepare the test plan and perform the manual testing.
- Analyze the program to identify the code changes as per the business requirements.
- Involved in knowledge sharing activities with team.
- Preparing and maintaining entire documents for projects.
- Preparing and producing releases of software components
- Transforming requirements into stipulations

Personal Details

- Address: Mumbai
- DOB: 09/03/1999
- Language known: English, Marathi, Hindi
- Gender: Male
- Nationality: Indian
