

RESUME

Name: SAIPRASAD DAS

Mobile: 6364323018

Email: sajprasaddas@11gmail.com

OBJECTIVE

To secure a challenging role in an innovative and growth-oriented organization where my professional and interpersonal skills can be utilized and further enhanced to contribute towards the organization's goal of serving people in a better way.

PROFESSIONAL SUMMARY

- 2+ years of working experience in the IT industry as a Java backend developer.
- Technically skilled as Java Backend Developer and involved in Development with Unit testing (SDLC) of enterprise and microservices applications using open-source technologies.
- Implemented solutions using Spring Boot, Spring Security, Spring REST and Swagger.
- Hands-on experience with Microservices using Spring REST, Spring Cloud components like Spring Eureka and API Gateway etc.
- Hands-on experience in developing enterprise applications using Spring Boot, Spring Data JPA, Spring MVC, Spring AOP and Spring Security.
- Hands-on experience in the Database (SQL) to write SQL queries based on user requirements.
- Extensively followed clean coding practices like OOPS, Design Patterns and Unit Testing.
- Extensive knowledge of all phases of application development (SDLC) including Requirements Gathering, Analysis, Documentation, Designing, Unit Testing, Debugging, Maintenance and Production Support.
- Extensive knowledge of all phases of application testing including Test Requirements, Tracking changes, Test case preparation and few new features & their implementations.
- Extensive experience in Scrum-driven Agile Methodology and Participating in SCRUM meeting and capable to handle complete products independently.

PROFESSIONAL PROFILE

Associate Software Engineer, at TCS Bangalore from – (January- 03-2022 to till date).

LinkedIn profile: - [linkedin.com/in/saiprasad-das-582318287](https://www.linkedin.com/in/saiprasad-das-582318287)

TECHNICAL PROFILE

- Programming Language : Core Java, J2EE, SQL
- Web Technologies : Spring MVC, Spring Boot, Data JPA, Spring Security
- Persistence Technologies : Spring Data JPA
- Application Server : Apache Tomcat
- Web Service : Spring REST
- Database : Oracle 19C, My SQL
- Web Technology : HTML, CSS
- Tools : Git, Maven, Log4j, JIRA
- Operating System : Windows
- Utilities & IDE's : Eclipse, IntelliJ, MySQL workbench, STS, MS Visual Studio .
- Build Tool : Maven
- Office Packages : MS Office (Word, PowerPoint)

EDUCATION

- **College of Engineering and Technology, Bhubaneswar 2018-2022**
Under Graduation (B. Tech) in Civil Engineering Department.

PROJECT

Project Title: IES (INTEGRATED ELIGIBILITY SYSTEM)

Client Name: Rhode Island (USA)

Duration: May 2022 to till date

Location: Bangalore

Role: Associate Software Engineer

Team Size: 13

Project Description: This Contractor Application and Qualification Document provides the procedures for heating contractors to apply and qualify for the IES Contractor Roster. Heating Contractors may apply for the roster at any time during the program year. So, it is an open enrollment process. In order to qualify for the Roster, Contractors must have qualifications specified in Minimum Requirements for HARP Contractors. Contractors must maintain all requirements in order to remain on the roster. IES reverses the right to modify the qualifications as necessary to serve the needs of the Program and its stakeholders. The program will make every effort to give advance notice of such modifications and to assist Current Contractors in obtaining any new qualifications.

Environment: Java 1.8, Restful Web Services (Spring Boot), Microservices, KAFKA, PCF, Angular, Hibernate, HTML, JSON, Log4j, Git, JUnit, Tomcat, Oracle.

Contribution:

- Integrating various Spring Boot components to build robust and scalable applications.
- Optimizing application performance using Spring Boot.
- Designing and Developing database schema using Spring Data JPA.
- Writing efficient MySQL queries and optimizing database performance.
- Implementing data access layer for applications using Spring Data JPA.
- Implementing USER Authentication and Authorization.
- Implemented Spring AOP for handling exceptions in the project.
- Designing and developing a database using MySQL.
- Delivering weekly updates to clients on behalf of the team.
- Conducting daily SCRUM calls to ensure efficient project progress and identify any roadblocks.
