## Projects

### Parkour SC / Cloudleaf (B2B)

ParkourSC | Offsite | Full Time | from Apr 2022 to Present

Skill Used: Spring Boot, Restful Web Services, Microservices, Elastic Search, Neo4J, Cassandra, Grpc, Kafka, etc.

Role : Programmer

Role Description: Java Developer

Project Details: Parkour SC shipment tracking project provides businesses with a solution to track their assets' movement in real-time using sensors and GPS tracking, which helps to reduce delays, improve efficiency and increase customer satisfaction. Parkour SC, is a logistics supply chain platform allows your business to increase operational efficiency by utilizing solutions to track your inventory accurately and track and monitor customer shipments for any potential disruptions. It leverages real-time sensors and contextual data on weather, traffic, strikes, or port congestion to create a more resilient and agile supply chain. It can create a custom smart packaging solution that adds value to business by offering real-time location and quality tracking and tracing throughout the shipping process.
