

# SHUBHAM PAWAR

---

## SUMMARY

Experienced DevOps Engineer with nearly 3 years of experience in architecting and implementing efficient infrastructure solutions. Proficient in automating deployments, enhancing performance, and promoting collaboration. Skilled in Jenkins, Git, Ansible, Docker, Kubernetes, and AWS. Demonstrated problem-solving abilities, strong communication skills, and a focus on innovation to deliver outstanding results in dynamic environments.

## EXPERIENCE

**DevOps Engineer, DEC 2020 - Current**  
**Rakuten Symphony - Indore, India**

### My Responsibilities:

- Possess substantial work experience mentoring and managing a team of 3 individuals responsible for Kubernetes deployment, micro-service image creation, and debugging deployment issues across diverse environments, including sandbox, staging, and production.
- Implemented CI/CD pipeline using Jenkins & Ansible for deploying microservices applications.
- Deploy and maintain CI/CD pipelines across multiple environments.
- Installed, configured, managed, upgraded and monitored Kubernetes cluster on Cloud service provider and on-premises.
- Designed automation script using ansible for full-fledged continuous deployment/delivery.
- Integrate different Continuous Integration & Deployment tools to achieve automation.
- Working on ways to automate and improve development, release processes.
- Leading development and operations processes inside the team.
- Helping team members to create more efficient work processes and scale systems.
- Doing client interaction to take necessary actions for critical production issues.
- Participate in client interactions to have a better understanding of their requirements and work accordingly.

---

## EDUCATION AND TRAINING

Bachelor of Engineering, Computer Science and Engineering, 2016-2020  
Sagar Institute of Research & Technology – Indore

- 7.78 GPA
- 

## CONTACT

**Address:** Indore, India 452012

**Phone:** 8871353889

**Email:** shubhampawar819@gmail.com

**LinkedIn:**

---

## SKILLS

- **Cloud:** Introductory AWS
- **Containerization:** Docker
- **Orchestration:** Kubernetes
- **CI/CD Tools:** Jenkins, Git
- **Configuration Tool:** Ansible
- **Networking:** Fundamentals
- **Scripting:** Bash Scripting
- **Object Storage:** Minio
- **Packaging:** Helm
- **Web Servers:** Nginx
- **Platforms:** Linux, Windows

## AUTOMATION ACCOMPLISHED

**ONE TOUCH DEPLOYMENT** | Ansible pipeline which deploys many microservices with just one single command.

**SANDBOX CI** | Jenkins CI pipeline for various java microservices with integration of git, maven, s3 & docker.

**SANDBOX CD** | Jenkins CD pipeline which deploy microservices using helm chart on Kubernetes cluster.

## CERTIFICATIONS

Certified Kubernetes Administrator (CKA) License - 2023-2026

## ACHIEVEMENTS

Team Excellence Award (Dec 2022)  
Rewarded for Outstanding Contribution.

Team award for demonstrating the principle of "Speed!! Speed!! Speed!!" (July 2023)
