

SUJEET SEN

Email : sujeet1.hti@gmail.com

Address: Panval, Mumbai

Notice Period: Immediately Joining

Expected CTC: 4-6 LPA

Professional Summary

- Hewlett-Packard Education Services Certified Java Professional.
- Completed a Java, J2EE course with certification from Naresh I Technology, Hyderabad.
- Proficient in software analysis, design, development, and testing with expertise in Java, J2EE, JSP, Servlets, EJB, JDBC, HTML, CSS, JavaScript, XML, Tomcat, SQL, Spring, Spring-Boot, and Hibernate.

Educational Qualification

Degree	Institution	Year &	Percentage
MCA (Computer)	Jabalpur Engineering College, MP	2016-2019,	6.0
BCA (Computer)	MMYVV Jabalpur, MP	2012-2015,	69%
12th	Sarvottam Higher Secondary School, MP	2011-2012,	75%
10th	Sarvottam Higher Secondary School, MP	2009-2010,	56%

Technical Skills

- Programming Languages: Java, C, C++
- Databases: MySQL, SQL Server-2000
- Web Technologies: HTML, XML, JSP, Servlet, JDBC, Spring, Hibernate, Spring Boot, GitHub, Swagger, JS, React JS
- Web & Application Servers: Apache Tomcat
- Design Patterns & IDEs: NetBeans 6.5, STS

Work Experience

- 2 years at **Crosis Private Limited (Jun 2021 - Nav 2023)** Location :Mumbai
- 1 year at **High System Private Limited (Dec 2023 - Oct 2024)**Location: Pune
- 6-month internship at **Gamming Solutions (Jun 2020 - Jul 2021)** Location:hyd

Personal Details

Languages: Hindi, English

Hobbies: Cricket, Carom, Football, Reading Book

Projects :-

Online Banking Services

Gamming Solutions PVT LTD

Team Size: 16

Role: Team Leader

Description:

Developed an online banking system to provide seamless and secure banking functionalities to users. The system included modules for account management, fund transfer, and transaction history.

Key Responsibilities:

- Designed and implemented a 3-tier architecture to ensure modularity and scalability.
- Developed backend services using JSP & Servlets for processing client requests.
- Conducted code reviews, unit testing, and integration testing to ensure high-quality deliverables.

Contact Management System

Technologies: Spring Boot, Spring MVC, JPA, REST API, Spring Security

Role: Java Web Developer

Description:

Created a robust contact management application to store, manage, and retrieve contact information securely.

Key Features:

- Developed RESTful APIs to handle CRUD operations on contact records.
- Implemented Spring Security for role-based access control.
- Integrated responsive UI using Thymeleaf for user-friendly navigation.

Online Food Delivery System

Technologies: Multi-threading, Spring Boot, React JS, Spring MVC, JPA

Role: Backend Developer

Description:

Designed a real-time online food delivery platform connecting restaurants with customers, including order tracking and payment integration.

Key Contributions:

- Leveraged multi-threading to optimize order handling and minimize response time.
- Used Spring Boot and React JS for creating a seamless user experience.
- Documented APIs using Swagger to ensure easy integration and maintenance.

SMPP SMS Gateway

Technologies: Spring Boot, React JS, Networking

Role: Full-Stack Developer

Description:

Developed an SMPP-based SMS gateway to send and receive high-volume SMS with efficiency.

Key Highlights:

- Integrated multi-threading to handle concurrent SMS delivery requests.
- Ensured reliability through error handling mechanisms and retry logic.
- Built interactive frontend using React JS for monitoring SMS delivery status.
