

UPASANA PRADHAN

JAVA DEVELOPER

SUMMARY

Dedicated and Efficient Java developer with over 2 years 3 months of successful experience in Java, Spring Boot, Microservices, and Spring Data JPA. Recognized consistently for performance excellence and contributions to success in the software industry.

2.3 Years of Relevant Professional Experience in Java, Micro Service, Spring Boot, and Hibernate. Have a Good Knowledge of Core Java, J2EE, Multi-Threading, Collections. Have Knowledge of Micro Service Based Technologies like Spring Boot, Eureka, config Server, and API GATEWAY. Participated in Complete SDLC Cycle like Requirement Analysis, Estimations, Coding, Unit Testing, Code Review to Release/Implementation, SW Change Requests, Defects/Bugs Analysis, and Post-delivery Support. Involved in Process and Quality Improvement Activities like Root Cause Analysis, Finding Best Practices, and Learning from Project Cycles, Quality Audits, and Checklist Improvements. Knowledge of software engineering practices: unit testing, configuration management, and release management. Worked on Debugging and resolving production Issues. Lot of time connected with clients related to their issues, demo, application usage, and troubleshooting.

SKILLS

- Database Management (e.g., SQL)
- RESTful APIs
- Performance Optimization
- Debugging and Troubleshooting
- spring MVC
- spring security
- microservices
- jpa

EDUCATION

Master in Computer Application
Berhampur University Aug 2018 - Dec 2020

EXPERIENCE

Senior Execuitve Java Developer
eReleGo technologies pvt ltd Nov 2021 - Jan 2024

Spearheaded the development and implementation of a comprehensive dashboard system for the company's advertisement domain, leveraging Java and React.js frameworks to ensure optimal performance and user experience.

Successfully integrated functionalities allowing multiple clients to access real-time data on daily revenues, impressions, and CPM (Cost Per Mille), enhancing transparency and facilitating informed decision-making.

Led the design and implementation of a secure invoice viewing feature within the dashboard, enabling clients to conveniently review and manage their billing information, resulting in improved client satisfaction and retention.

Maintained and optimized the database infrastructure to efficiently manage client records, ensuring data integrity, reliability, and scalability to accommodate growing business demands.

Collaborated closely with cross-functional teams, including stakeholders, designers, and QA engineers, to gather requirements, iterate on designs, and deliver high-quality solutions on schedule and within budget.

Proactively identified and addressed technical challenges, such as performance bottlenecks and security vulnerabilities, through rigorous testing, code reviews, and continuous improvement initiatives.

Provided ongoing support and troubleshooting for the dashboard system, promptly addressing client inquiries and resolving issues to minimize downtime and maximize user satisfaction.
