Bachelor of Engineering in
Computer Science

Sethu Institute of Technology

2016-2020

CAREER OBJECTIVE

Looking forward to an opportunity for working with some challenging project and utilize them for personal and organizational growth to the best of my ability

EXPERIENCE

Software Engineer (2+ Years), Chella Software, Madurai

- Collaborated with cross-functional teams to design and develop user-friendly web applications.
- Developed and maintained RESTful APIs for data exchange between front-end and back-end systems.
- Collaborated with clients to gather project requirements.
- Optimized database queries and improved application performance, resulting in faster response times.
- Provided immediate temporary and permanent solutions to critical production issues in effective way.
- Implemented Apache Kafka as a core component for data streaming, enabling real-time data processing and analysis.
- Deployed applications on Apache Server and managed server configurations.

PROJECTS

RBI Retail Direct

Retail Direct is web based platform for retailers to buy government bonds directly at RBI. Investors can buy their bonds through primary auctions.

Sentinel

Sentinel is monitoring system which will monitor the commodity exchange market and generates alerts if any Order/Trade shows suspicious movement in market.
